EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Downs on 3/8/07.

The application has been amended as follows:

In claim 8, line 4, after "Fe₂O₃", the period "." has been deleted.

Claims 18-23, drawn to inventions non-elected without traverse, have been canceled.

Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 6,134,059 discloses a production process for a color filter comprising the steps of providing a base having a plurality of light-transmitting areas, and coloring the light-transmitting areas with ink dots, wherein each of the colored positions is continuously formed over a plurality of the light-transmitting areas.

US 6,399,257 discloses a color filter manufacturing method comprising the steps of forming, on a substrate, a photosensitive layer that increases or develops hydrophilic property upon irradiation with light; exposing the photosensitive layer to light for

patterning to form hydrophilic areas and non-hydrophilic areas; and applying a setting ink to the hydrophilic areas with an ink jet technique, thereby forming colored portions.

JP 5-142407 discloses a process for the production of a color filter comprising the steps of continuously changing the relative positions of micronozzles discharging picture element forming materials and a transparent substrate, by which colored patterns are formed in the form of a stripe on the transparent substrate.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

In a color filter substrate manufacturing method of applying a coloring liquid to a substrate surface of a translucent substrate so as to form at least one colored layer comprising an applying step of applying the coloring liquid to the substrate surface comprising areas showing lyophobic property to the coloring liquid and areas showing lyophilic property to the coloring liquid, the prior art does not teach or suggest the method including applying the coloring liquid while the coloring liquid is continuously brought into contact with the areas showing lyophilic property and the areas showing lyophobic property.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. McPherson whose telephone number is (571) 272-1386. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on (571) 272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
